INDEX TO ILLUSTRATIONS

American Astronomical Society, Nantucket, Sept., 1926, Plate XXIV...Op. 545
Rochester, N. Y., Dec., 1925, Plate V, Op. 173
Camera, Short-focus, and star field taken with it, Plate XXIII.....Op. 496
Cassiopeiae, Faint stars near Z 142
Comet 1925 *j* (Van Biesbroeck), Apparent path of, through Leo..... 64
Diagram showing relation of orbit of, to that of the earth 63
1925 *k* (Peltier-Wilk), Diagram showing relation of orbit of, to that of the earth 65
1925 *l* (Ensor), Diagram showing relation of orbit of, to that of earth 214
1926 *b* (Blathwayt), Diagram showing the relation of orbit of, to that of earth 212
Comets of 1925, Photographs of the, Plates VII, VIII.....Op. 227
Constellation charts.....45, 123, 193, 260, 323, 383, 448, 517, 581, 638
Corona at the total eclipse of January 14, 1926, Plate XV.....Op. 349
XVI .....Op. 352
XX .....Op. 440
Cygni, Light-curve of VY 495
WZ and XZ 496
Double star Σ 2773, Faint stars near the 68
Eclipse expedition at Benkoelen, Sumatra, Apparatus used by the Swarthmore College 351
to Sumatra, Janury 14, 1926, Photometric apparatus of the Harvard 418
Twenty-inch coronal radiometer of the Harvard... 417
observers at Benkoelen, Sumatra, January 14, 1926, The international, Plate VI .....Op. 223
of January 14, 1926, Kepahiang, Sumatra, Corona photographed at the, Plate XX .....Op. 440
General view of U. S. Naval Observatory station, and personnel, Plate XXI .....Op. 441
Total (diagram) 38
July 9-10, 1926, Annular (diagram) 39
the sun, July 9, 1926 (diagram) 311, 312
1932, August 31, The total (diagram) 79
Computed paths of Oppolzer and Seagrave for 81
(Sumatra, January 14, 1926), Observers going through drill for the.. 353
Spectroscope and interferometer under cover 355
The Einstein cameras with covers lifted 356
Eclipses of 1724, 1900, 1918, The total (diagram) 80
Fireball of November 15, 1925 422
Herbert Couper Wilson, Plate XIX .....Op. 409
Hussey, William Joseph, Plate XXVIII .....Op. 605
International Astronomical Union, Members of the, Cambridge, England, July 21, 1925 256
Jupiter, July 21, 1926, Plate XXII .....Op. 481

King and Queen, Visit of the, to Greenwich Observatory 258
K-line, Frequency curve of intensities for stationary 163
Intensity curve of stationary 7
Relation between color excess and intensity of stationary 9
K-lines, Distribution of intensities of stationary 6
Lunar appulse, 1926 December 18-19 (diagram) 615
Mars, Drawings of, forecasting what may be seen in 1926, Plates XVII, XVIII ..... Op. 365
in 1924, Plates I, II ..... Op. 149
III, IV ..... Op. 157
IX, X ..... Op. 289
XI, XII ..... Op. 297
XIII ..... Op. 304
Map of, Number 3 358
Meteor train, Forms of the Hornell 435, 436
Moon and sun, Photographs of, with 11-inch reflector without driving clock, Plate XIV ..... Op. 309
Photograph of 70
Observatory on roof of an apartment house, Views of 501, 502, 503, 505
Planets, Apparent paths of the, among the stars during the year 1926 ..... 40, 41
Polar Cap, Position angles of the southern 16, 17
Prince of Wales and Professor Schlesinger 565
Satellites, Apparent orbits of, of Mars, Neptune, Saturn, Uranus, at date of opposition 42, 43
Standard deviation plotted against mean intensity of Si^{++} λ 4553 162
Sun, Diagram showing the relative positions of the bright planets and, in 1926 23
Telescope and mounting at Mandeville, Jamaica, Views of reflecting, Plate XXVII ..... Op. 576
Latimer J. Wilson's reflecting 310
Telescopic camera, A 70
Principle of (diagram) 71
Thaumasia, Maps of 294, 295
Time measured graphically (diagrams) 516
Velocity curve of 37 ϕ^1 Orionis 1
Velocities obtained from stationary calcium lines, Distribution of residual 5
Wilson, Herbert Couper, Plate XIX ..... Op. 409
William Joseph Hussey, Plate XXVIII ..... Op. 605
Yale Telescope, Johannesburg, South Africa, Plates XXV, XXVI ..... Op. 561
Dr. Harold Alden in charge of the 564
Professor Schlesinger at driving clock of the 562

GENERAL INDEX

Abbot, C. G., The variation of the sun and its consequences (abstract)..... 547
Albrecht, Sebastian, Errors of wave-length in stellar spectra arising from the titanium comparison spectrum (abstract) 182
On convection currents in Class-B stars (abstract)..... 548
Aldebaran, July 10, 1923, Occultation of 220
American Association prize, Dr. Miller receives $1,000..... 219
American Astronomical Society—
Reports of observatories (Córdoba, Harvard College, University of Illinois, Lick, Leander McCormick, Detroit, La Plata) 24-37
Reports of observatories (Ottawa, Mount Wilson, United States Naval, Princeton University, Smithsonian Astrophysical, Sproul, Van Vleck, Washburn, Yale University, Yerkes) 99-122
Thirty-fifth meeting of the 173, 239
Thirty-sixth meeting of the 545
Thirty-sixth meeting of the (announcement) 475
Thirty-seventh meeting of the (announcement) 643
American Meteor Society, Report of the, for 1925, *Charles P. Olivier*..... 165
